

Cuyahoga Valley Native Sons Native Daughters

Create a lifetime of memories with your child as you participate in fun, rewarding activities! Experience a one-on-one father/child relationship as you never have before. Acquire new friendships and develop a greater sense of belonging to family, neighborhood, and community.

This nationally acclaimed program is unique because unlike most youth programs, dads participate with their children in every activity! The program focuses on the one-on-one father/child relationship. The Native Sons Native Daughters program is an ideal way to grow the bond between father and child.

All activities are tailored to the needs of children in grades K through 4 and are centered

around a Native American theme. The theme serves as a common level of interest between parent and child which is useful as a tool for introduction to Native American cultures. The spiritual belief systems embraced by these cultures are incorporated into the theme to help reinforce the parent and child's own traditional family values.

Camping, Hiking, Biking, Swimming, Parades, Craft/Racing of Rockets, Pine Cars and Boats.
