

Cuyahoga Valley Native Sons Native Daughters

Come share a lifetime of memories with your child as you participate in fun, rewarding activities! Experience a one-on-one father/child relationship as you never have before. Acquire new friendships and develop a greater sense of belonging to family, neighborhood, and community.

This nationally-offered program is unique because unlike most youth programs, the father is required to participate with their child! The program focuses on the one-on-one father child relationship that is established within a group setting.

All activities are tailored to the needs of the pre-adolescent child in grades K through 4 and are centered around a Native American theme. The theme serves as a common level of

interest between parent and child which is useful as a tool for casual introduction to First Nation cultures. Such exposure often serves as a springboard

for further investigation to the needs and aspirations of current indigenous people. The spiritual belief systems embraced by these cultures are incorporated into the theme to help reinforce the parent and child's own traditional family values.

Camping, Hiking, Biking, Swimming, Parades, Craft/Racing of Rockets, Pine Cars and Boats.
